## The Ultimate Multi-Purpose Sports Floor

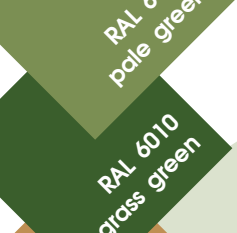

The Gymlastic multi-purpose sports floor is an environmentally friendly, multi layered system comprised of a rubber granulate base covered with four coats of polyurethane. This system allows for a seamless floor installation, making Gymlastic an ideal solution for multi-purpose facilities.

Gymlastic provides excellent shock absorption, sound absorption, and durability, making it the perfect surface for sports, aerobics, and dance. In addition, with superior mechanical strength to support heavy equipment loads and portable bleachers, Gymlastic is suitable for a variety of uses including automobile exhibits, band performances, conferences, assemblies, and even the homecoming dance!

With the added feature of being a low-maintenance flooring system, Gymlastic requires no finishing or waxing and can be installed in a range of thicknesses from 1/4" to 1/2".
