

Case Study

Steve Nash Fitness World

WHO

Steve Nash Fitness World

WHEN

2015

WHERE

Burnaby, British Columbia (BC), Canada

WHY

Needed acoustic underlayment that insulated sound and vibration, so club could be at a good neighbor to the retail stores and bank located downstairs.

WHAT

Largest fitness provider in BC, Canada featuring 3/8-inch thick Sound Reducer & Puzzle Tile. Installed 3/8-inch thick Sound Reducer first and then a second layer of 3/4-inch Sound Reducer cross directionally right on top. A 3/4-inch plywood subfloor was then laid on top of both layers of Sound Reducer; and, the fourth and final visible layer of surfacing that was installed was 3/8-inch thick interlocking rubber PuzzleTile, resulting in 13,500 SF of Centaur product
